		<hr/>
Grand total		\$15,950.08
Net debt, Jan. 31, 1942	\$6,740.12	
Net debt, Jan. 31, 1943	3,692.43	
		<hr/>
Decrease of debt	\$3,047.69	

In comparing this report with last year's it will be noted that the net debt as of Jan. 31, 1942 has been changed. This is explained as follows: Last year there was included as an asset \$1,743.37 cash in hands of the road agent, however at that time pur-

chase of a new truck had been negotiated awaiting only release by federal authority for completing the deal so that the price of the truck, \$1,232.00, should have been included as a liability which would make the net debt, Jan. 31, 1942, \$6,740.12 and an increase of the net debt during that year of \$907.37.

The increase of debt was caused by the purchase of fire fighting equipment.

As the end of 1941 drew near it appeared from the road agent's accounts that, due to careful management and the wise use of WPA and TRA funds, it was probable he would have a substantial balance of appropriation at the close of the year. Considering the then critical situation regarding the future purchase of steel and rubber equipment he suggested the immediate purchase of a new truck. With the approval of the selectmen and the budget committee this was done. Under similar conditions in January 1943 a reconditioned motor grader was procured. Since both these pieces of equipment were paid for from the regular appropriation for the highway department so that it will not be necessary to raise any extra money your town officers are confident that the majority of the taxpayers will approve of this procedure.

All the schools of the district offered full 180 days of schooling. Ninety-two different pupils were registered. Outside the district 15 elementary pupils and 10 high school students attended in Warner. In New London there were 15 high school pupils, making a total of 132 pupils residing in the district and attending public schools.

On account of the cut by the voters in the amount of money to be raised according to the school board's estimate last March the district will again face a deficit at the end of the school year.

On account of the continued and increasing shortage of teachers, it will be necessary to expect an advance in this item for the coming year. Fuel has already advanced in cost, and transportation is likely to follow.

Sutton is one of the few rural districts where the number of pupils has increased or remained stationary during the past two years. In most similar districts the number of pupils has decreased 14 percent to 20 percent.

In Sutton schools 13 pupils were registered in Grade I in September, 1942. A larger group of beginners was enrolled in the previous year. It is the responsibility of the voters to provide suitable funds for the schooling of these children who are the principal asset of the town.

Respectfully submitted,

JOHN A. SINCLAIR,

Superintendent of Schools.
